"The Elevations grant has helped our family tremendously by easing the financial hardship of paying for two types of therapies. We are so grateful to [our son's] therapists for helping him make progress, and we are grateful to Elevations for helping make therapies more accessible to our family. We know that [our son] will likely continue to need ongoing therapy as he gets older, and having the grant helps us focus on his development rather than the financial burden of therapy copays."
